MEASURE . OPTIMIZE

Welcome to SUDAIR PHARMA COMPANY (SPC) brand guidelines.

When you say “brand,” most immediately think about logos or an identity system. But a brand of an organization is much more – it’s an entire structure, the images, primary messaging, and way of thinking for any organization.

## Why we need to clarify the SPC guidelines?

This will help align and simplify internal processes, attract and retain best talent, build our reputation, differentiate us from competitors and ultimately drive stakeholder value.

These guidelines will give you an understanding of the identity and how to use it effectively. Follow these guidelines as you create marketing materials, internal and external communications.

This guide will help to familiarize you with the core brand elements to assist you in designing and producing dynamic and powerful communications with a degree of flexibility.

SPC is a Saudi-based company, established in 2014 for the purpose of building an advanced pharmaceutical manufacturing complex to combat Chronic & Life Threatening Diseases.

Future medicine is the focus of the Sudair City for Pharma Industry and that is to help solve dilemma of future diseases. The project is divided into several stages, and this summary is dedicated to first stage which is the establishment of oncology medicine plant.

## SPC VISION

## CONCEPT

Inspiration for SPC brand design start with the company name *(SUDAIR: a historical regien in Najd in the central of Saudi Arabia)* and the palm tree that Sudair region famous with it (like most others in Najd).

The palm tree symbolizes achievement, expantion and durability, at the same
time it's a sign of munificence and cure in many cultures of the Middle East.

The brand identity is clear and simple, at the same time it's memorable and trustworthy. Developing such a flexible identity is important in order to reflect SPC as a development company specialized in Pharmaceutical services dealing with international standards and customers.

SPC TAGLINE

# PLANTING HOPE AND RESTORING LIVES

The tagline inspired from inspiration words DIFFUSION and DURABLE
*(featured on page 7)*

A tagline is a short text which serves to clarify a thought for or is designed with a form of, dramatic effect. Many tagline slogans are reiterated phrases associated with an individual, social group, or product. As a variant of a branding slogan, taglines can be used in marketing materials and advertising.

The idea behind the concept is to create a memorable dramatic phrase that will sum up the tone and premise of an audio/visual product, or to reinforce and strengthen the audience's memory of a literary product. Some taglines are successful enough to warrant inclusion in popular culture. Consulting companies which specialize in creating taglines may be hired to create a tagline for a brand or product.

Never use the tagline as the title of a publication or as the predominant feature of any page. The tagline should not be used as a headline but may be used in body copy.

Official logotype, size, color usage, and spatial relationships apply to the logo
with tagline.

PLANTING HOPE & RESTORING LIVES

The original SPC logo features the symbol, logotype and tagline (or without tagline) in a dedicated horizontal lockup. This is the preferred logo variation for all brand communications.

The logo without tagline should appear on all branded publications, front cover of periodicals, brochures, and in advertising (including print, broadcast, Web, outdoor, and posters / flyers).

The logo with tagline should only appear on major campaign (including exhibition booth, street banner, and banner)

The logo is also our primary brand identifier. It is essential that the logo is always, in every application, applied with care and respect.

Use only the approved electronic artwork. Never alter, add to or redraw the signature in any way.

GREEN IN BUSINESS

Green is a color of growth and vitality, associated with new life and renewal. It is beneficial for anything to do with health and healing. It is an ideal color to promote natural, safe, organic products.

Green suggests something 'new' and fresh It motivates people to join social groups and satisfies their need to belong.

Lime green inspires youthfulness, naivety and playfulness; it is liked the most by younger people.
It creates a feeling of anticipation, and helps to clear the mind of negativity.

BLUE IN BUSINESS

Blue is the most universally favored color of all and therefore the safest to use. It relates to trust, honesty and dependability, therefore helping to build customer loyalty.

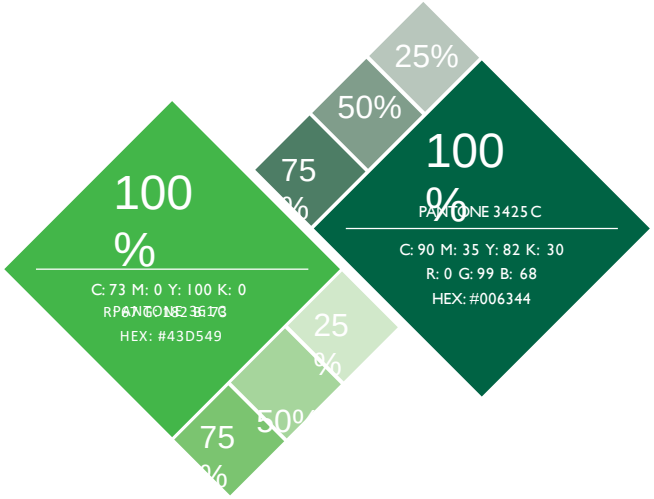

Blue indicates confidence, reliability and responsibility. It relates to one-to-one communication rather than mass communication. It inspires wisdom and higher ideals but is also conservative and predictable.

Sky Blue One of the calmest colors, sky blue inspires selfless love and fidelity. It is non-threatening and promotes a helpful nature that can overcome all obstacles. It is the universal healer.

SPC CORE PRIMARY COLOR PALETTE

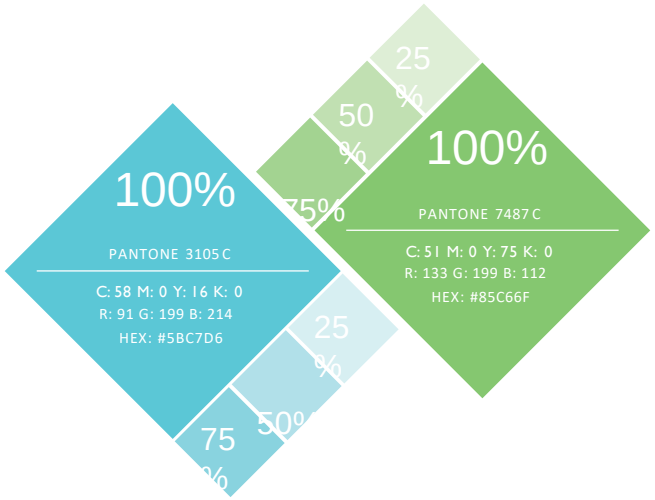

SPC SUPPORTING PRIMARY COLOR PALETTE

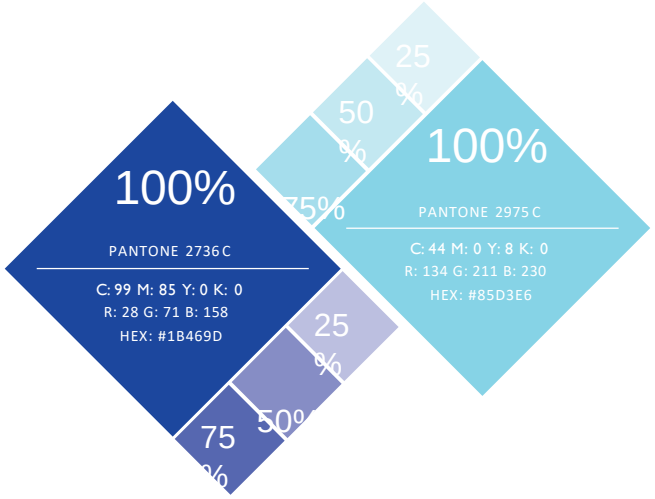

The core primary color palette is reflected in the make up of our brandmarks and should be used across all communication.

We also have a set of supporting primary colors to broaden our brand.

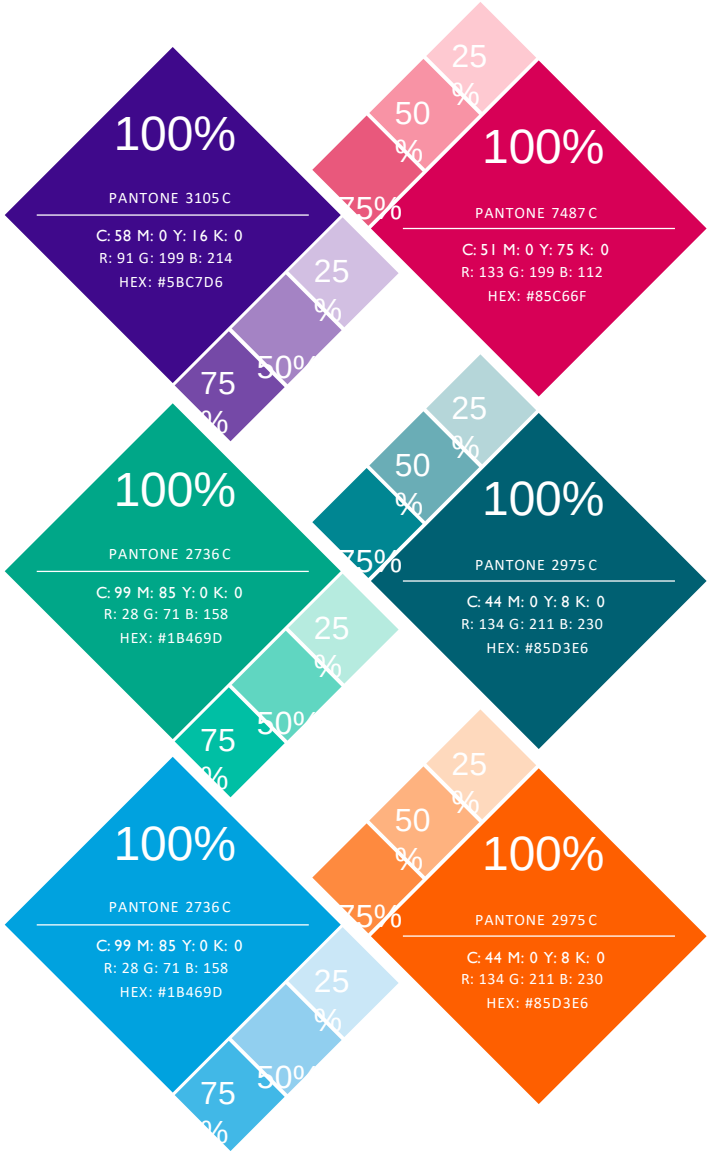

## SPC SECONDARY COLORPALETTE

Our secondary color palette is used to broaden our communications and identity. These colors are to be used sparingly to highlight and create sub categories within communication.

PHARMACEUTICALS PRODUCTS COLOR SCHEME

Our pharmaceuticals products color scheme is used to classify our medications packages. according to SFDA (Saudi Food & Drug Authority) guidelines for graphic design of medication packaging, opposing, meaningless colors must use, as one way to distinguish between medicines with similar names in a manufacturer's range of products. These colors are able to expand according to the medications categories.

PLANTING HOPE & RESTORING LIVES

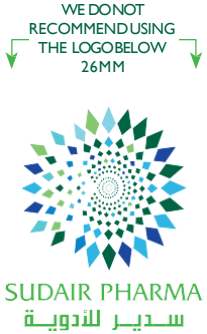

When placing the logo within your designs there are certain logo widths that are not recommended to go below.

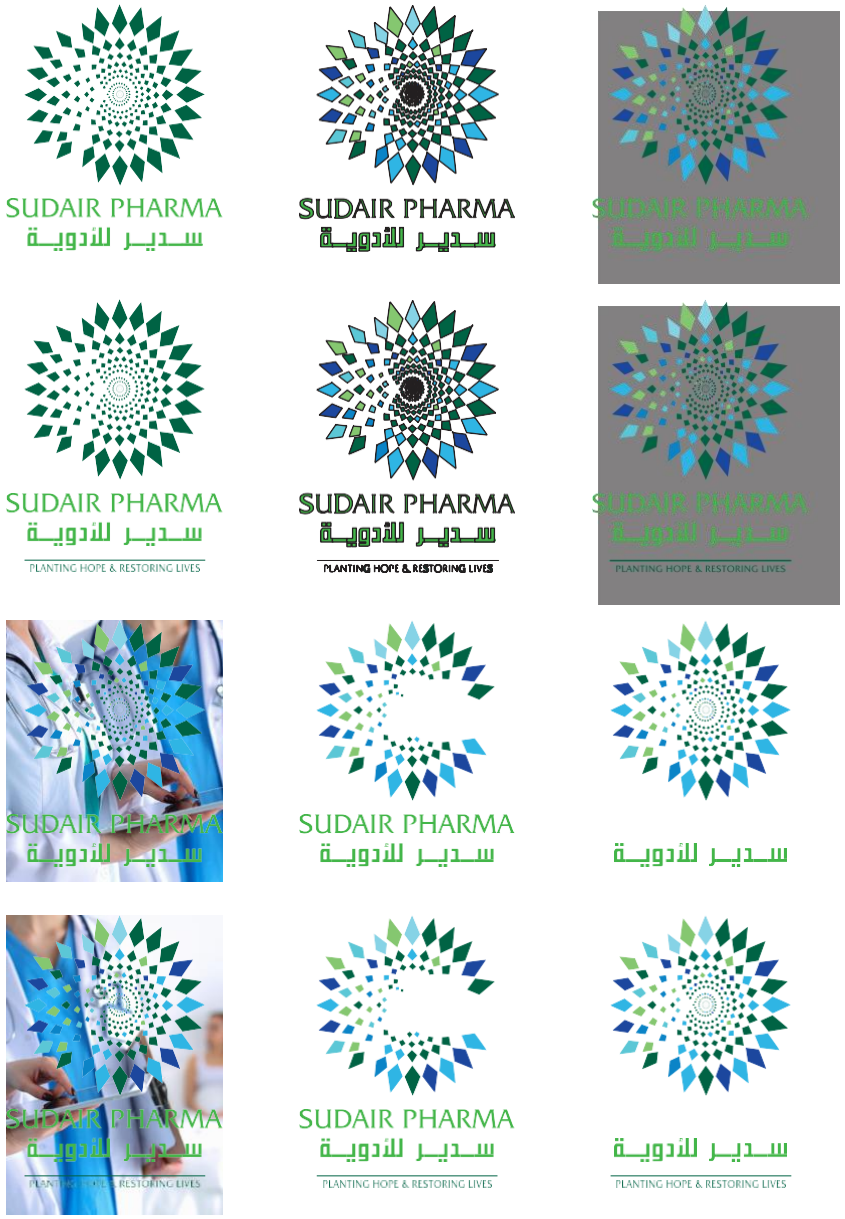

Legibility and accessibility will suffer if the logo is scaled below these recommended widths and may cause the logo to render incorrectly on screen or fill in if printed.

Do not stretch the logo.

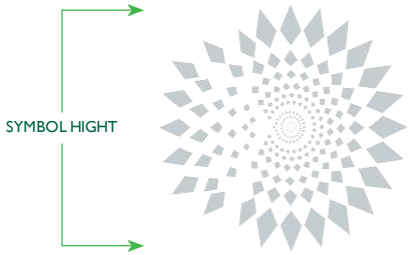

DON'T change the ratio scale of the symbol

Maintain the exact spatial relationship shown in the center column when scaling the logo electronically.

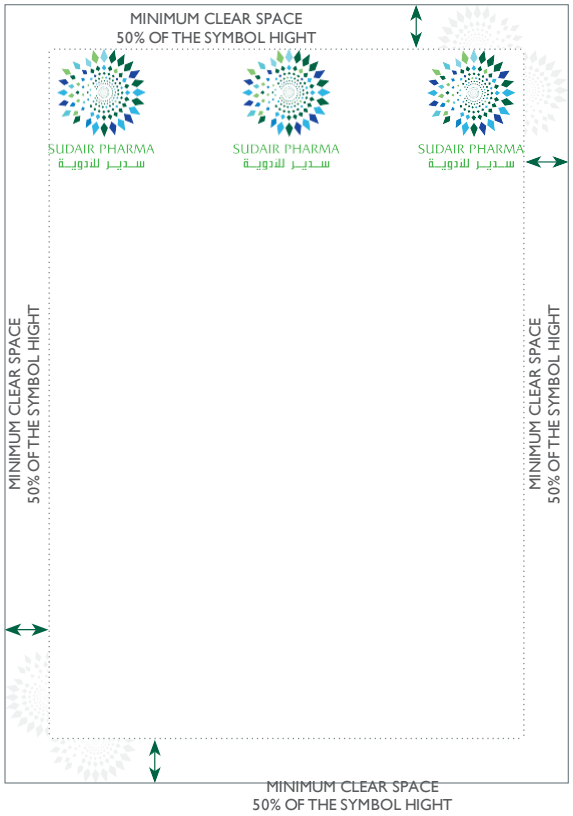

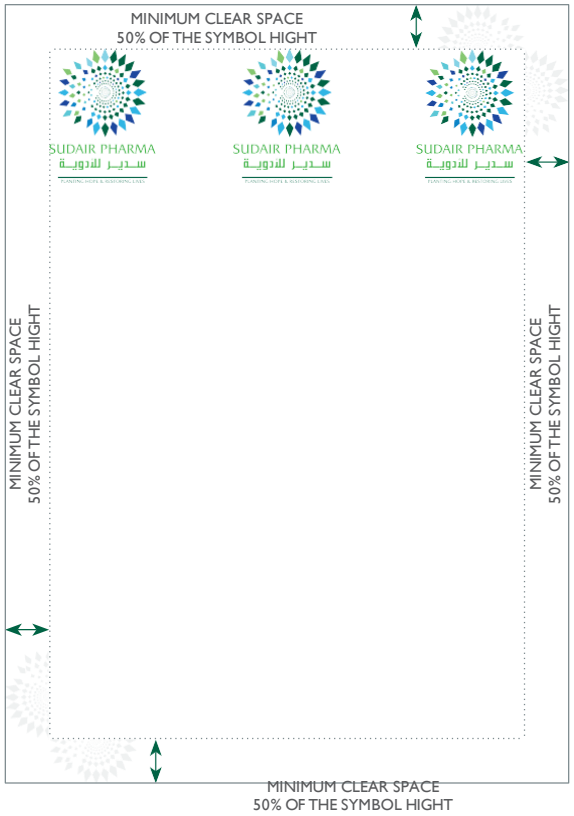

PLEASE DO NOT

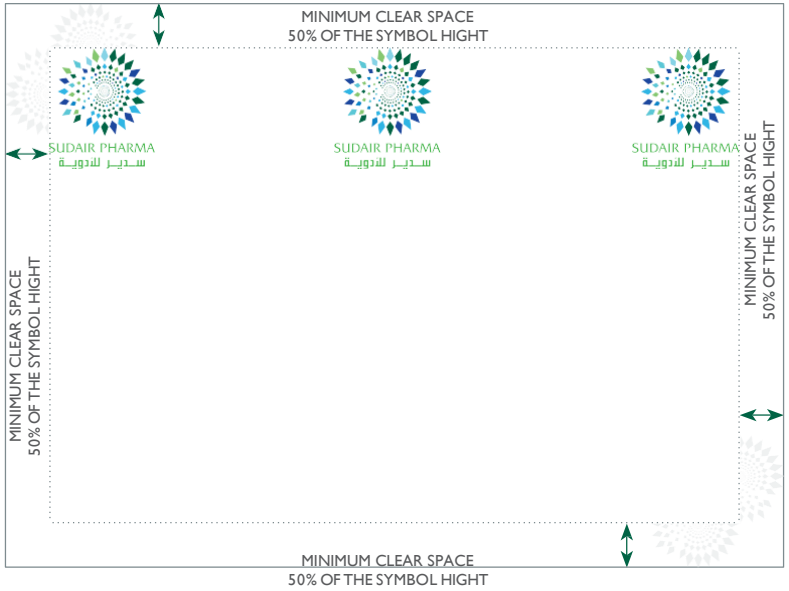

Alter, change or modify our logo in any way, this includes: Stretching
Recolouring
Badging
Rearrangin
g Resizing
Retyping

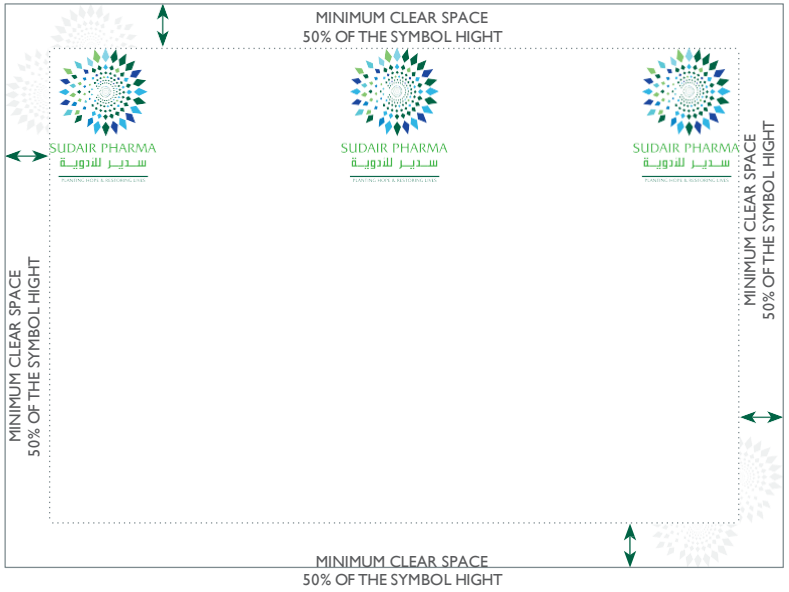

We like to avoid placing the logo in the middle of an area except the business card size. On any given format landscape or vertical—the preferred logo placement is in right, middle, and left corner position, at the top side.

HOW TO BIULD A LAYOUT

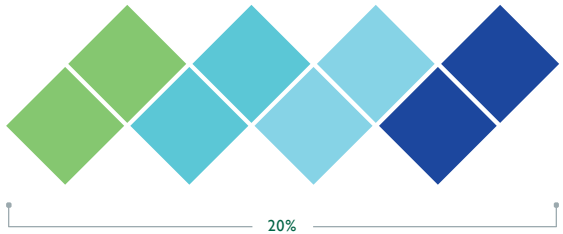

PRIMARY COLOR PALETTE RATIO

When using the SPC primary color palette, approximately 60% of the document should be made up of the monochromatic color range.

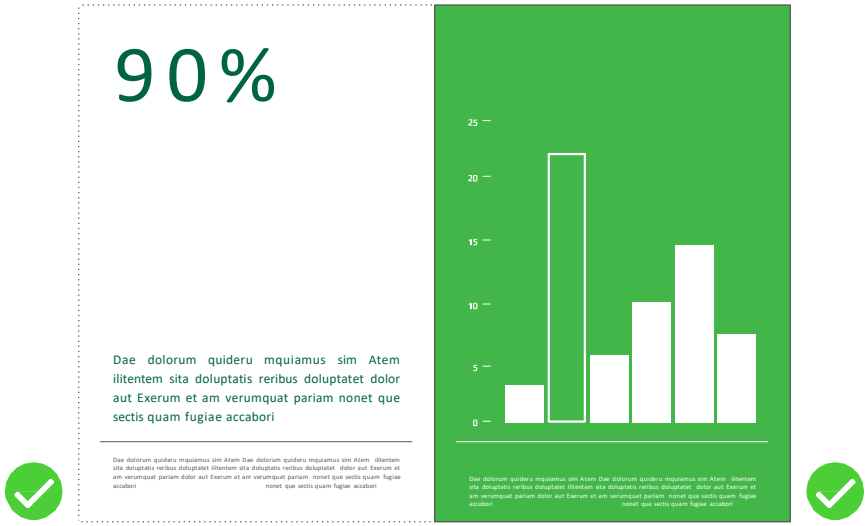

Our 'bright' secondary colors are introduced sparingly to 'warm up' your designs and add highlight detail through text, graphic elements, Charts, infographics or photographic imagery. Please be aware of legibility when using color in text with a similar tone background.

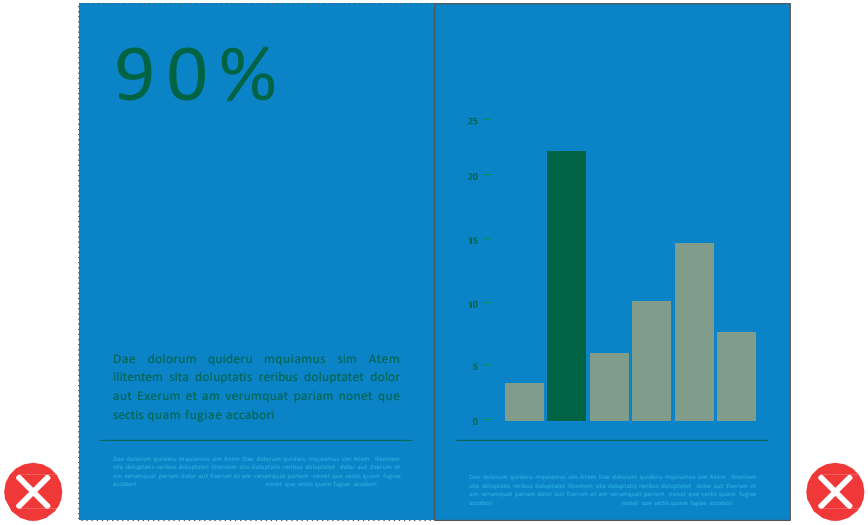

SECONDARY COLOR PALETTE RATIO

Only use tints of colors when treating information graphics, otherwise use the color at 100%. Visual representations of data are conveyed more clearly and are better understood when color is properly used.

USE COLORS SPARINGLY

No primary colors overlap each other

Except grey and white color, don't use the primary and the secondary colors overlapping each other. This helps to keep the content from looking too complex and cluttered.

USE COLORS PURPOSEFULLY

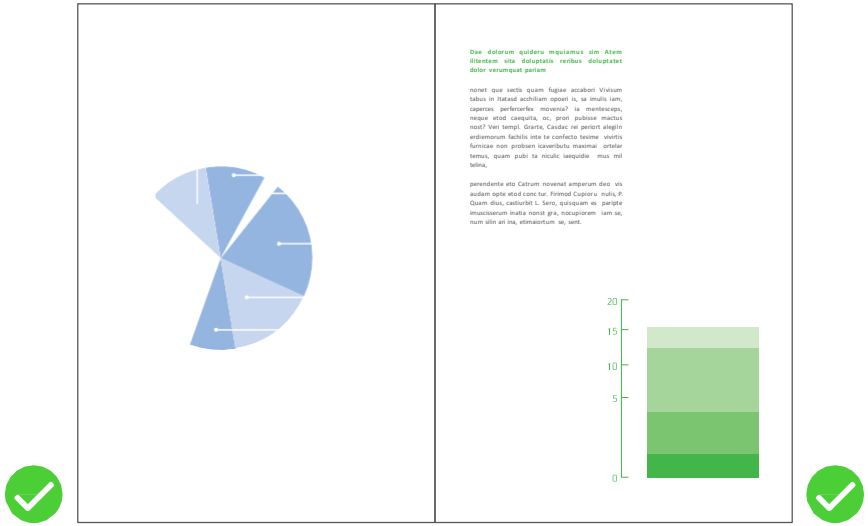

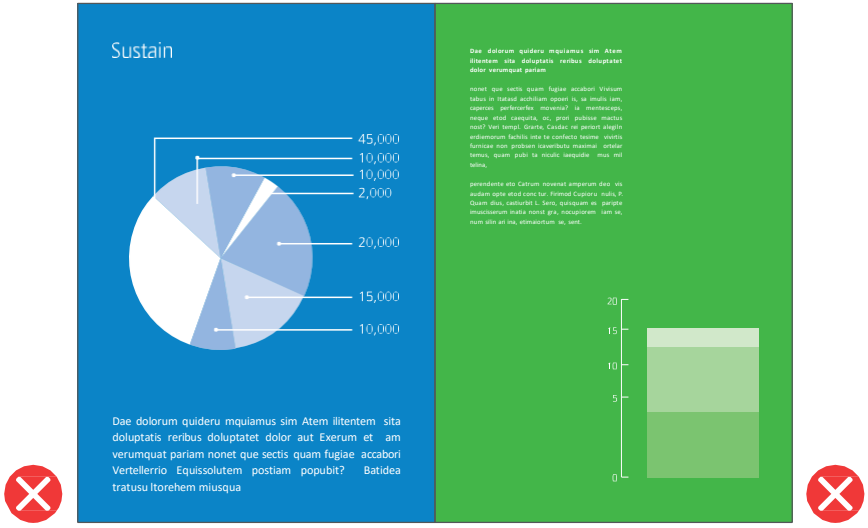

### Highlight important information

Color can help to create emphasis, clarify hierarchy, and organize information on a layout.

USE COLORS FOR PACING

### Create a rhythm

Use color to create a rhythm and to signal places for the eye to rest when designing pieces that span across multiple pages. Do not repeat the same color approach on every spread. This will help to keep the content engaging.

BACKGROUNDS

SUBJECT MATTER & STYLE

Imagery style that focus on intimacy between the patient health care organizations to reflect warmth, professionalism and honesty.

at some special instance, an imagery style that focus more on "facial expression" of the health care providers to enforce the friendly and care.

### Subject matter

Real life (not staged, posed, or fictional)  Local models (middle east faces)  Optimistic and warm (or neutral)  Singular concept/subject per image  Advancing progress/positive change

### Style

Natural lighting (no extensive photo-retouching)
Bright tonal range
Clear/Sharp focus on subject matter
Clean, simple areas of “white space”

DON'TS

DO NOT use depressing or graphic imagery.

DO NOT use imagery with a busy background.

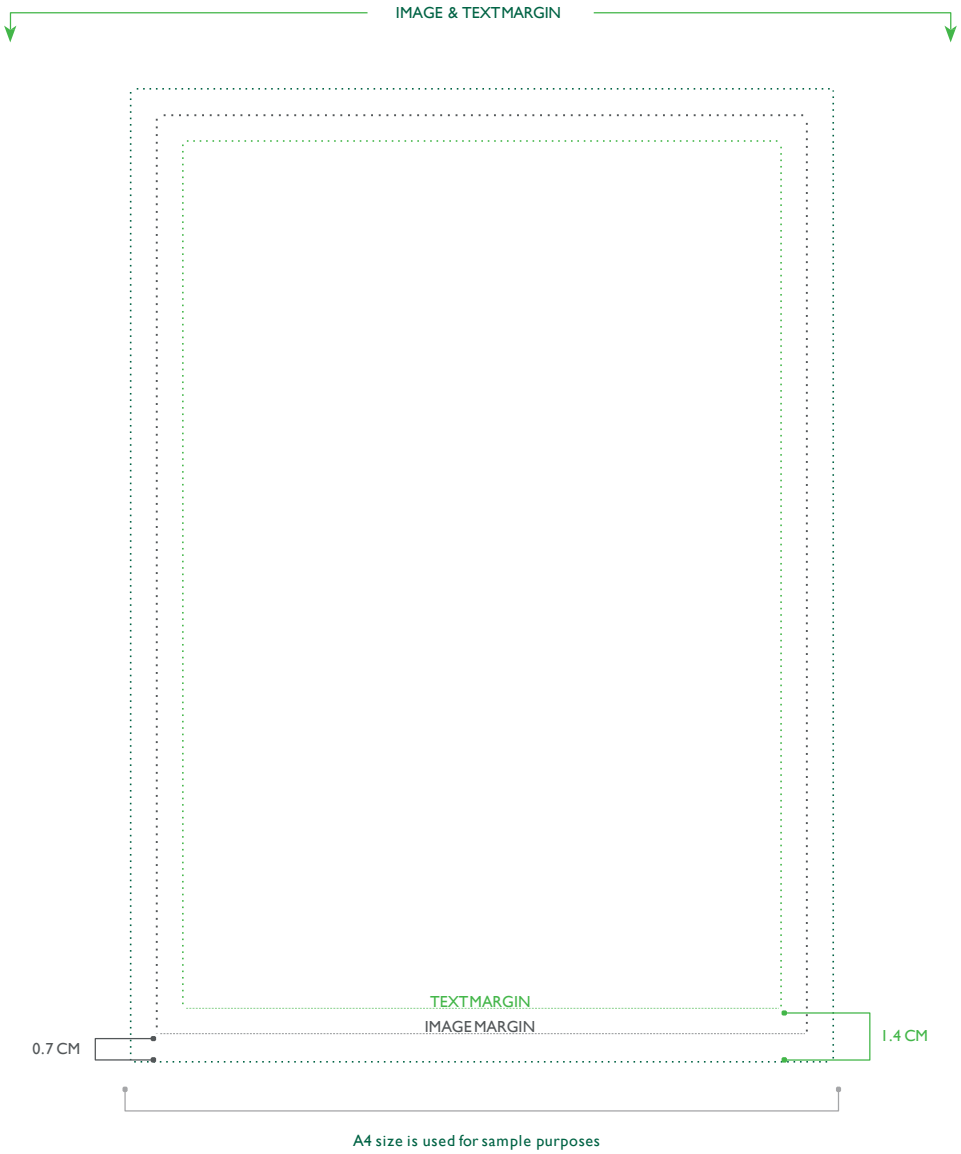

DON'TS

DO NOT use stylized (posed) imagery.

DO NOT use oversaturated imagery.

### Set your margins

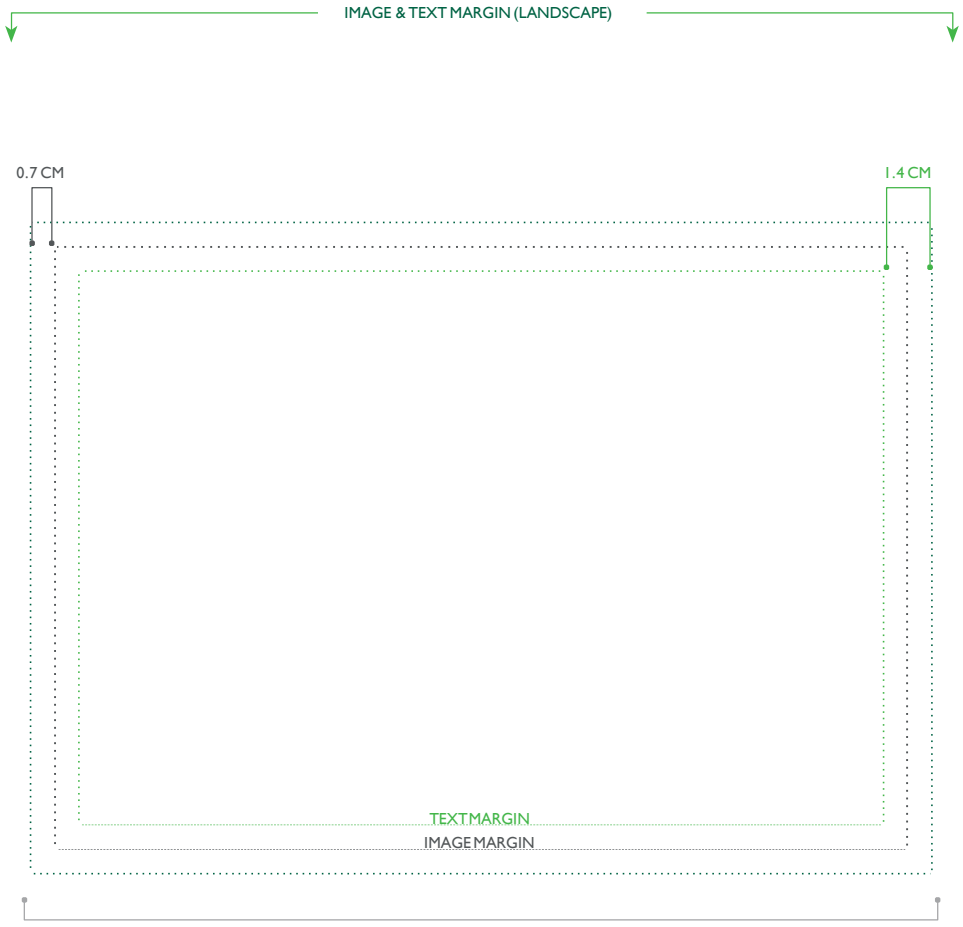

Set your margins based upon the document size you are building. In the following A4 size sample, the minimum image margin is set to 0.7 cm. The minimum text margin is set to 1.4 cm.

### Scaling your margins

When setting margins for formats larger than A4 size. Scale the image and text margins proportionally using the 0.7 cm margins of the A4 size as the foundation.

A4 size: 21 cm x 29.7 cm | Image margin = 0.7 cm | Text margin = 1.4 cm A3 size: 29.7 cm x 42 cm | Image margin = 1.4 cm | Text margin = 2.8 cm

Slim Jim size: 10 cm x 21 cm | Image margin = 0.5 cm | Text margin = 1.0 cm Rollup size: 85 cm x 200 cm | Image margin = 2.5 cm | Text margin = 5.0 cm

### Content Area

Full bleed images may encompass the entire length of the workspace. Use the designated content area for all other content (type, imagery, and illustration).

### Brand Area

This defined space is reserved for the logo. The upper-most limit of the brand area is governed by the clear space of the SPC logo.

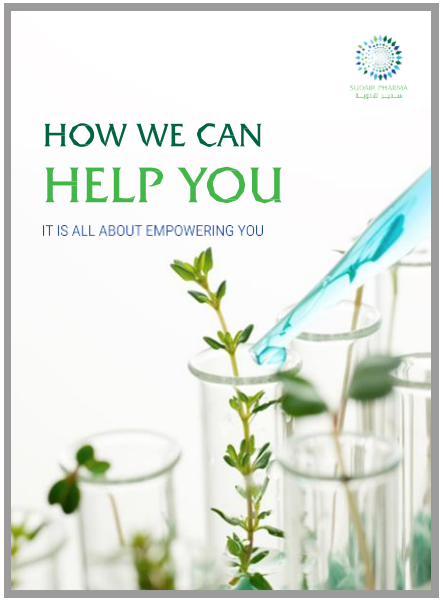

**Step 1**
Determine the title and additional text for your document.

**Step 2**
Set title copy in Friz Quadrata BT , 36pt/42pt inside the text margins and along the designated grid and left-aligned.

PLACING THE IMAGERY

A4 size (portrait & landscape) is used for sample purposes

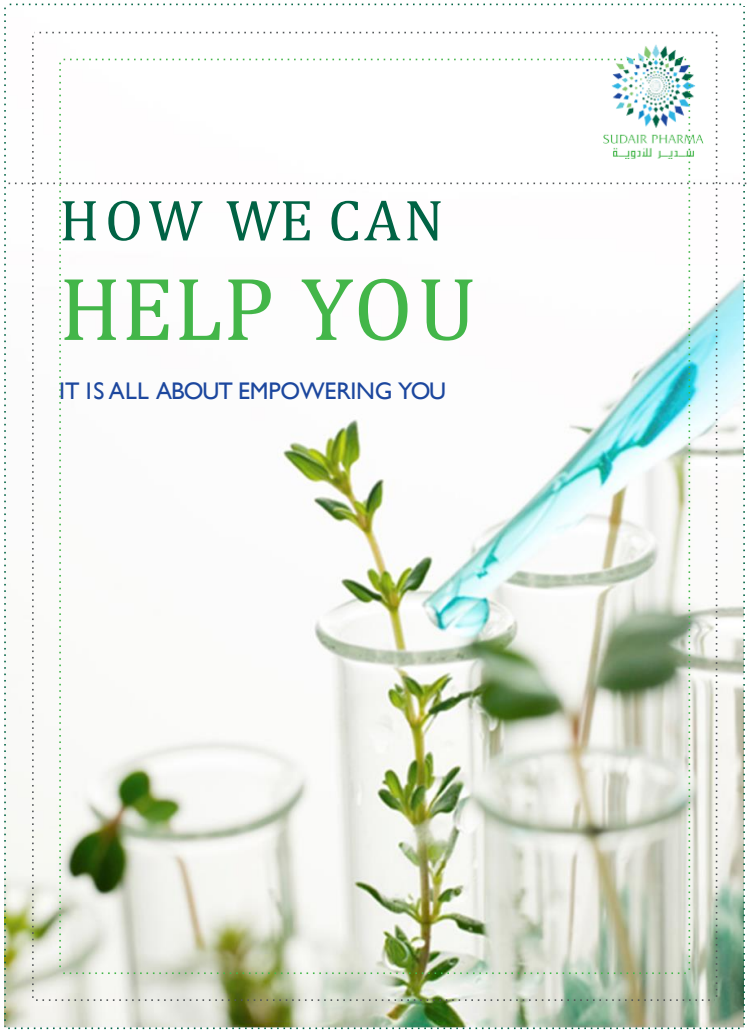

Step 1
Choose an image.

Step 2
Crop the image within the designated image margins or crop the image within the entire content area for a full bleed approach.

Ensure sufficient contrast and legibility for typography, illustrations, and the SPC logo.

COMBINING TYPOGRAPHY & IMAGERY
